

Allocating your investments

When you became an INPRS member, you were asked to select the investment funds and asset allocation amounts for the funds in your Defined Contribution (DC) Account. Each time money was contributed to your DC, it went into the funds based on the allocations you specified. If you made changes to your investment elections and/or allocations, the change applied to your existing balance as well as any contributions that would later come into your account. You can also direct these monies separately.

By logging on to your secure INPRS account, you can allocate your current DC balance to any of the fund options. Additionally, you may direct any future DC contributions to a completely different asset allocation.

Members have more options in directing their investments to ensure the mix of funds is more in line with their retirement goals. Detailed information on each of the investment funds available can be found on our website. Members can choose from:

- **Fixed Income Fund**

- **Inflation Linked Fixed Income Fund**
- **International Equity Fund**
- **Large Cap Equity Index Fund**
- **Money Market Fund**
- **Small/Mid Cap Equity Fund**
- **Stable Value Fund**
- **Target Date Funds**

This is a great time to look at diversifying your asset allocation. Take the opportunity to invest your DC account based on your retirement goals. You may want to meet with a financial advisor to help you decide which options are best for you.

If you have questions, please contact our customer service center. We can be reached Monday through Friday from 8 a.m. to 8 p.m. EST at (844) GO-INPRS, or feel free to e-mail us at questions@inprs.in.gov with your concerns.
